

Connie Mullen, LM, CPM, ICCE, CCCE

Connie has been in the childbirth profession for over 25 years. She is a Florida Licensed Midwife, Nationally Certified Professional Midwife, Certified Childbirth Educator (ICEA & CAPP), FOCEP (Florida Outreach Childbirth Education Program) Faculty member and preceptor, and has certificates as a childbirth assistant, breastfeeding specialist and fitness instructor.

Connie received her schooling as a midwife at the South Florida School of Midwifery and the National School of Technology. She has attended over 800 births both in Florida and in Jamaica in the home, hospital and birth center setting.

She trains childbirth educators, midwives and is a past director of The Hollywood Birth Center. She has also given many presentations, lectures and written several articles.

Connie has directed a new mother support group, helped organize outreach childbirth education in the Broward County School system and organized and taught a prenatal/postnatal exercise program.

Connie is very active in the community working with crisis pregnancy centers, teen outreach and aiding couples and women seeking alternative childbirth options.

In 1999, Florida Baby Magazine named Connie Best Midwife in Palm Beach County.

In Fall 2002, Connie received the Matthew J Bulfin Award for her service to His Caring Place and crisis pregnancy centers.

Philosophy

Childbirth is viewed as a natural health process. Childbirth is a peak life experience with long term effects on the development of both mother and baby.

Education of the client is an essential, integral part of prenatal care. With knowledge freely imparted to the woman, she is able to assume responsibility for health maintenance and effective utilization of medical care.

Education through discussion, videos and handouts assist you in becoming more confident and knowledgeable about yourself and the birth process in order to help you become an informed consumer.

Learning labor coping skills, breathing and relaxation practice and support from other expectant couples in your class reduce anxiety about your birth.

Class size is limited to aid in the relaxation process and to enhance learning.

For more information contact Connie at:
